

Additional Question Modules

- What about those "Check-Boxes" when creating a meeting

In the following, you will find lists of questions that will automatically be added to your questionnaire if you choose additional question modules when creating a meeting (by checking the "check-boxes").

A new set of questions will be added to the questionnaire for participants as well as the one for staff members. All added questions are evidence-based and already translated to German, French and Polish.

Available question modules:

- This is a multilateral youth exchange programme.
- This is a cultural youth exchange.

So far, question modules do exist only for questionnaire types "Youth Exchange" and "Youth Exchange (short version)". More modules will be developed and made available as soon as possible.

No matter how many modules you decide to add to your questionnaire, you might always add your *own* questions as well - for further information, see "[II.2. Editing a questionnaire](#)".

In the following tables, you find the respective additional items for participants and (*in red*) staff members.
